

Easter Egg Hunt 2010

On Easter Saturday BAC held its first ever Easter Egg Hunt for the children and grandchildren of the allotmenters. Jude from Plot 37 had prepared a trail around the site and the children had a story to follow containing clues. The aim was for the children to help mother Hen find the names of 6 lost chicks.

Hannah and her Mum off in search of lost chicks.

The reward was awaiting them back at Hut 2 - cream eggs!

The children were also treated to a bit of egg related gardening. Half egg shells were filled with compost and cress sown on the surface. A face was drawn onto the egg and the cress will grow into its hair.

The children also sowed cress through a chick stencil which will grow into a cress chick on a plate.

Ben helps his mum draw the face onto his egg above and below Hannah sows her chick.

It would be difficult to tell whether the children or their parents enjoyed the Easter Egg Hunt the most.
